Dragon Naturally Speaking Standard

Dragon NaturallySpeaking Standard offers home users powerful features to maximize their productivity and have more fun with PCs. After completing about 5 minutes of training, you can talk to your computer and watch your words instantly appear in virtually all Windows® based applications, including popular e-mail, word processor, and web browsing applications. Dragon NaturallySpeaking is the most accurate Dragon NaturallySpeaking ever, and the easiest to use.

(continued on opposite side)

With Dragon NaturallySpeaking Standard , you can launch programs, create, edit and format documents, and manage the desktop--all by voice! Dragon NaturallySpeaking Standard is fully integrated with Microsoft Word, Corel WordPerfect, and AOL. With Dragon NaturallySpeaking, you can surf the web, write e-mails, chat on-line all by speaking. Dragon NaturallySpeaking represents a significant step forward in the accuracy, speed, and ease-of-use of speech recognition technology.

Dragon Naturally Speaking Preferred

Dragon NaturallySpeaking Preferred offers home and small office users powerful features to maximize their productivity. Use Dragon NaturallySpeaking to increase productivity even when you're on the go! Simply dictate into a ScanSoft certified Pocket PC or handheld digital recorder, and then automatically transcribe your dictated speech when you synch with your PC. Correcting your documents is easier than ever with Dragon NaturallySpeaking . Use RealSpeak Proofing to have your documents read back to you in the most natural sounding synthesized voice available, or simply have your own recorded dictation played back for you.

Dragon Naturally Speaking Professional

Dragon NaturallySpeaking Professional Solutions is a powerful productivity tool that enables corporate and professional users to work faster and more efficiently. Speak, and your words appear on screen in letters, spreadsheets, and forms. Dictate memos, reports, and other documents; enter data; fill-in forms; send e-mail; and work on the Web--all by voice! Perform complex tasks on your computer with a spoken word or phrase, customize your vocabulary and commands to match your workflow, listen to incoming e-mail and documents read aloud, reduce the need for manual transcription, and much more. Integrated with the full Microsoft® Office suite, and Corel® WordPerfect®, Dragon NaturallySpeaking® software works with virtually all Windows®-based applications, including enterprise information management systems. Dragon also includes Roaming User/Network Support, your user profile is available anywhere on the network. Smart Formatting allows you to specify how dates, measurements and acronyms will be formatted while Smart Commands automatically change the nature of a command based on your cursor location.
