

QualiDVD is a QualiWORLD plug-in module and is an easy to use DVD application which allows the user to watch and manage any DVD movie directly on their computer screen, without the assistance of another person or the use of a mouse and keyboard.

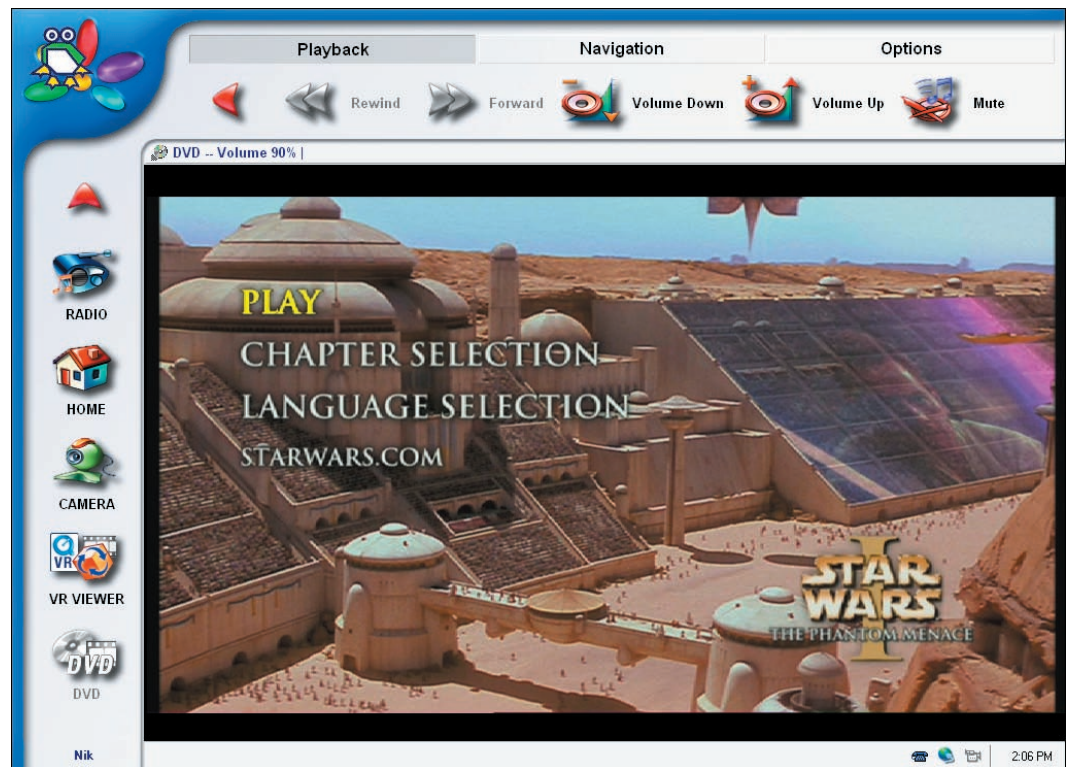

Main Features

🌸 Manage the DVD menu using any of QualiWORLD's computer Access Methods that replace the mouse and keyboard: Auto Scan, Manual Scan, Auto Click, X/Y Mouse, Radar Mouse, Directional Mouse, QualiKEY Onscreen Keyboard, QualiEYE Head Mouse or any other manufacturers external switch or pointing device

🌸 Compatible with all 6 DVD Regions

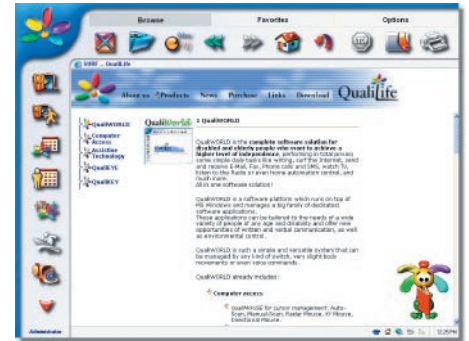

🌸 Play, Pause, Stop, Forward and Rewind the DVD movie any time and Manage the Volume

QualiDVD provides access to DVD movies, allowing those with disabilities to watch their favorite movies straight from their computer

EVAS offers a variety of Technology Solutions that provide access to computers, information, communication and environmental controls for people with physical disabilities. Desktop or notebook computers are an integral part of the solution. QualiWORLD, a Windows compatible software platform, is at the heart of our systems. Now, daily tasks like writing letters, reading documents, communicating verbally, sending/receiving e-mail, using the phone, sending Text Messages, faxing, surfing the Net, watching TV, listening to the radio or controlling the home environment are all available in a seamless solution.

QualiWORLD: QualiWORLD combines QualiKEY and QualiEYE with a variety of input and management tools creating seamless computer access. QualiWORLD also manages a family of plug-in, access specific, application programs. Choose from eleven plug-in applications to create a customized Accessibility Suite. QualiWORLD can be run by ability switches, pointing devices or voice commands. Once selected, the preferred access method will control all the applications; creating a consistent, easy to use solution.

Dell™ and EVAS Alliance: EVAS, an industry-leading provider of integrated accessible systems, has teamed with Dell™, the world's leading computer systems company, to provide Plug & Play Computer Solutions specifically designed for people who are visually, physically, hearing or learning disabled.

A Total Solution: EVAS will combine Dell Computers, application software, peripherals and Access Technology to create a Plug & Play System that will meet both your physical and computing needs. EVAS offers a wide range of access technology for people who are visually, physically, hearing or learning disabled and can create systems for people with multiple disabilities. You can review the five Technology Overviews on our website for more information. Please call the EVAS Customer Support Team at 800-872-3827, if you have questions or would like a system designed and priced.
